SUPPORTED INDEPENDENT LIVING

Supported Independent Living (SIL) is help with and/or supervising daily tasks in a shared living environment, focusing on developing each individual's skills to live as independently as possible. The support provided to each person living in the shared arrangement is based on their support needs.

Assistance provided to a participant is included as part of their plan depending on the level of support they require to live independently in the housing option of their choice.

INDIVIDUAL LIVING OPTIONS

These support items introduce new options and alternative ways of living for people with a disability. Individualised Living Options (ILOs) are packages of support built as a result of holistically considering each individual's preferences, strengths, assets, support requirements, informal and community supports. An Individualised Living Option is not determined by the homeownership or leasing situation or eligibility for Specialist Disability Accommodation (SDA) funding. An Individualised Living Option is the support provided and not the accommodation or dwelling itself.

Individualised Living Options are a quotable support depending on your own individual needs, please get in touch with us to register your interest.

SHORT TERM ACCOMMODATION & ASSISTANCE

These items support self-care, accommodation, food and activities in a centre or group residence for short periods. They may also include a period of respite, which aims to support ongoing caring arrangements between participants and their carers. STA/respite allows the participant to be supported by someone else while providing their carer with short term breaks from their usual caring responsibilities.

The support items include all expenses in a 24-hour period, including assistance with self-care or community access activities, accommodation, food and negotiated activities typically used for short periods of up to 14 days at a time.

MEDIUM TERM ACCOMMODATION

Medium Term Accommodation (MTA) covers the accommodation costs of this support, with the care component claimed separately. This support item recognises that there may be cases where a participant will require longer-term transitional accommodation before moving into a more permanent home or arrangement (for example, after hospital discharge). Typically, MTA is used for periods up to 90 days. Participants who stay in MTA are responsible for using their income rather than their NDIS plan for food and everyday living costs.

IN HOME, SOCIAL & COMMUNITY SUPPORT

Self Care Activities items provide a participant with assistance with, or supervision of, personal tasks of daily life to develop the participant's skills to live as autonomously as possible. Community Participation support relates to assisting with or supervising a participant to engage in community, social or recreational activities. Supports can be provided in a range of environments, such as in the community or a centre.
